

School Research Worksheet (Exercise 4.2)

In order to make good decisions about school, make sure you research your options. You can look online or call the school directly. Make sure to think about what you will get out of any program before you enroll in it.

Directions: Use this worksheet to track your research on schools or programs. Make sure you find out the type of training and any services for students. Also, find out how long the training is. List the costs and anything else you must have. If you are looking at more than one occupation, make a new worksheet for each one.

Occupation Title: _____

School or Program Name	Type of Training (Degree, license, certification, etc.)	Services for Students	Length of Training	Costs & "Must Haves" to Enroll
1.				
2.				
3.				
4.
